Office Memorandum • UNITED STATES GOVERNMENT

TO : Chief, FBIS
Attention: Operations Officer
FROM : Chief, Okinawa Bureau
SUBJECT: Broadcast Logographs

DATE: 21 August 1952

1. It is requested that clarifications be made in logographs for the following broadcasts:

a. Taipei in Amoy at 1045 GMT.

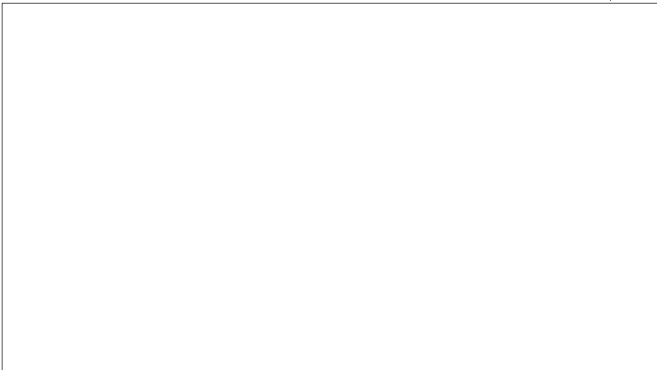

- 1) Standard Broadcast Logographs No. 3 (page E-7) lists two possible logographs for this broadcast: Taipei in (language) to China and the Far East or Taipei in (language) to the Far East.
- 2) Program Schedules of Foreign Broadcasting Stations (page 7-80) has this broadcast under the general heading "To China and Abroad," with the specific transmission "To the Far East and Southeast Asia."
- 3) For some time past this bureau has been using Taipei in Amoy to China and Overseas Chinese, as the bureau's Chinese monitors report that the above-mentioned broadcast is prefaced with the remark that the program is intended for "Overseas Chinese."

b. Moscow to the Far East and Moscow to Southeast Asia.

- 1) According to Standard Broadcast Logographs No. 3 (page A-4), two different type logographs are listed: Moscow, Soviet Far Eastern Service, in (language) and Moscow in (language) to Southeast Asia.
- 2) The Program Schedules of Foreign Broadcasting Stations shows Tonkinese, Indonesian, Cantonese and Hindustani broadcasts under the general heading "Moscow to South Asia," (page 1-6), with specific broadcasts "To Southeast Asia" or "To India, Pakistan and Southeast Asia." Japanese, Korean, Mandarin and Mongolian broadcasts are listed under the general heading "Moscow to the Far East," (page 1-7/8), with specific beams for each language.
- 3) To attain uniformity and to avoid confusing these programs with those listed under the general heading "Moscow to the Soviet Far East" (page 1-19) --

- 2 -

which would appear to be the most logical programs to be designated "Moscow, Soviet Far Eastern Service" -- it is suggested that logos for the broadcasts discussed in b (2) above be amended in Standard Broadcast Logographs No. 3 to correspond with the beams as given in the Program Schedules of Foreign Broadcasting Stations.
